House

This property is valued for being a special place to live when you want serenity and contemplate nature at any time of the year and at any time of the day. Another added value in this property is the variety of fig trees, Alexandria vine, pomegranates, avocados, mango, custard apples, mandarin trees, orange trees, lemon trees... the possibility of making a good vegetable garden because there is a very fertile land since it has been taken care of so that the harvest is organic, because the land is not treated with any chemicals, treated simply with diatom and good manure, every year it is invested in fertilizing this land well... You will be able to supply yourself in any season if you wish. In this area all the neighbors have made sure that the electricity is underground. City and well water. There is a bus stop 3 minutes away. Possibility of fiber optics. On the property there is a house with approximately 50m2 and 2 large storage rooms. It is a small paradise where disconnecting from the noise of the world and connecting with nature and with yourself will be easy.
